

Deliverables

This is a team assignment which has the following deliverables:

1. An ERD of your resulting dimensional model (star schema).
2. Populated tables (no need to implement in SQL; just create tables with column headings and data).

Description

INSTRUCTIONS: Create a star schema diagram that will enable FIT WORLD GYM to **analyze their revenue**.

- The fact table will include: for every instance of revenue taken—attribute(s) useful for analyzing revenue.
- The star schema will include all dimensions that can be useful for analyzing revenue.
- The only data sources available are shown below.

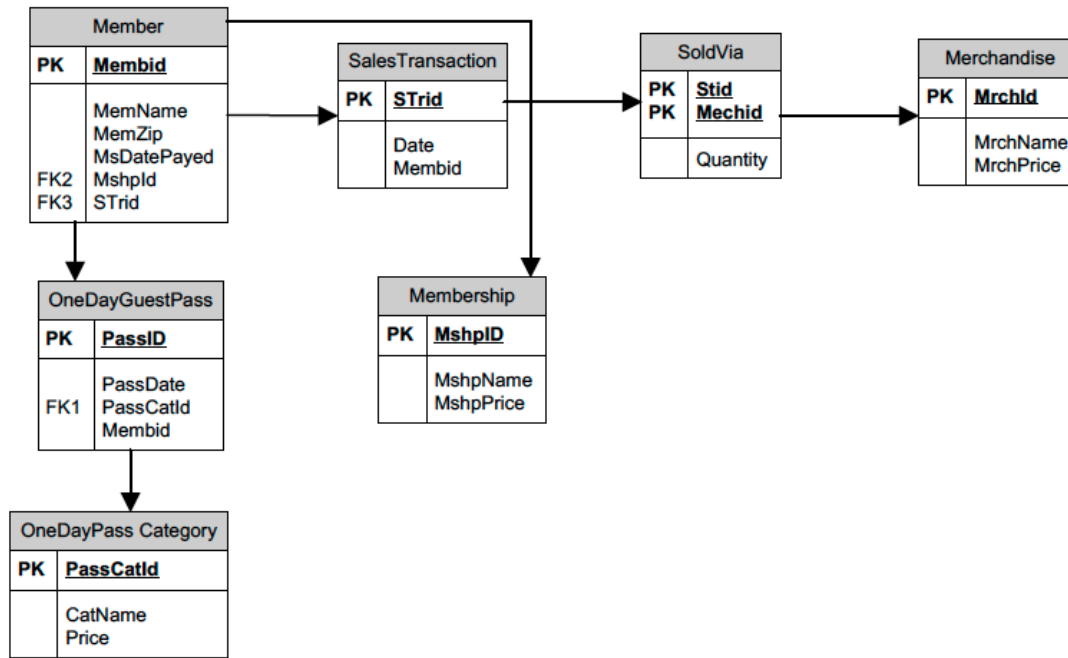

Submission Guidelines

- Open your Word processor, create a new document, and place your name at the top of the document.
- Paste the diagram from ERDPlus into the Word document and create your fact table and additional populated tables. Be sure to add the appropriate number of rows for each table.
- Submit your Word document.

Sample Data

MEMBER

<u>Membid</u>	MemName	MemZip	MshpID	MsDatePayed
111	Joe	60611	M1	1-Jan-04
222	Mary	60640	M3	1-Jan-04
333	Sue	60611	M3	1-Jan-04

MEMBERSHIP

<u>MshpID</u>	MshpName	MshpPrice
M1	Platinum	\$1,000
M2	Gold	\$800
M3	Value	\$300

ONE DAY PASS CATEGORY

<u>PassCatId</u>	CatName	Price
PSA	Adult	\$20
PSS	Senior	\$10
PSK	Kid	\$3

MERCHANDISE

<u>MrchID</u>	MrchName	MrchPrice
AP1	T-shirt	\$11
AP2	Hat	\$9
EQ1	Jump Rope	\$12

* ONE DAY GUEST PASS

<u>PassId</u>	PassDate	PassCatId	Membid
1-001	1-Jan-04	PSA	111
1-002	1-Jan-04	PSA	333
1-003	2-Jan-04	PSK	333

SALE TRANSACTION

<u>STId</u>	Date	Membid
11111	1-Jan-04	333
11112	2-Jan-04	222
11113	3-Jan-04	111

SOLD VIA

<u>STId</u>	MrchId	Quantity
11111	AP1	1
11111	AP2	1
11112	AP2	1
11113	EQ1	3

* Members can bring in non-member guests.
For each non-member guest, a member buys a one-day-guest-pass of a certain pass category.
